

Artcity News * Public Announcement

**Now everyone can enjoy the creative life.
Play Stardome like you're on a talent show**

**Stardome Playing Rules
www.stardome.games**

The Stardome Game is an opportunity to explore creative talents of art and music, song and dance, comedy, storytelling, performance art, and visual arts.

Stardome is played with a Stardome Playing Board, Artlife Trivia Questions & Art Performance Cue Cards.

*When your turn comes, you can talk about the artistic life.
Put on a performance until other players tell you to stop.*

Everyone in the Stardome Game begins as an amateur. Starting on the amateur outer circle, you work your way up to center stage, by answering trivia questions, telling stories, singing and performing. To become a star performer on center stage is the aim of the game.

**Join the Superstars on Centerstage
Show Your Talents for Fame and Fortune**

How to Play: The Stardome Game begins when someone invests in their talents. The game begins when players place a coin, or personal token, on the playing board. Then when your turn comes around, put on a show of your talents for a minute or two

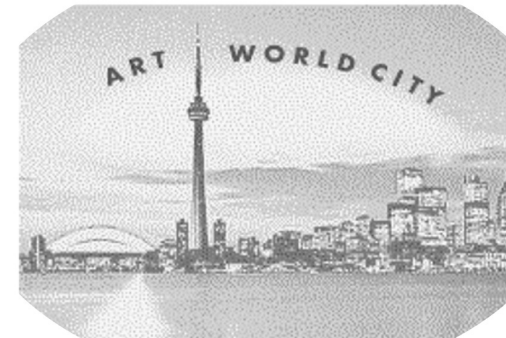

How to Win. You Win the Stardome Game by performing for an audience of critics. The other players are your critics. At the end of every performance, the judges decide if you can move your token, from the Amateur Outer Circle to Superstar Centerstage.

The first player to reach Centerstage is the winner of the game. Winners get to keep all the money & tokens on the playing board. Then a new game can begin. Everyone wins in a stardom game.

Now anyone can host an Art Party, simply by playing games with friends and strangers. All you need is a game board and players.
